Why did you come back, why did you come back – to me?  
Why did you come back, why did you come back – to me?

Every day I drink my beer – with another boy, another girl  
Every day my head – it burns! – with another boy, another girl  
Every day I feel so glad – with another boy, another girl

Why did you come back, why did you come back – to me? To me?  
Why did you come back, why did you come back – to me? To me?
